

PREVENTIVE MAINTENANCE PACKAGES

- ▶ Provides regular inspections and routine selected maintenance options to keep your truck in peak operating condition.
- ▶ Scheduled maintenance is performed around your business needs.
- ▶ Secure fixed preventive maintenance expenses for your transportation operating budget requirements.
- ▶ Freightliner factory-trained technicians and in-stock genuine Freightliner and Detroit® parts will help maximize your uptime.
- ▶ Hours of operation at Freightliner dealers allow for flexibility of service.

FREIGHTLINER PREVENTIVE MAINTENANCE PACKAGES

Keeping your truck on the road and your business moving is our greatest priority. Freightliner Preventive Maintenance Packages are designed to prevent downtime and costly repairs by providing service and inspections at Freightliner-recommended intervals, performed by factory-trained technicians.

Select one package or both, along with optional add-ons that let you scale our services to your needs. Our Annual Preventive Maintenance Inspection Package helps ensure you stay DOT/MVI certified. Our Interval Preventive Maintenance Service Package covers all the basics for keeping your truck in peak operating condition and preventing costly downtime. Whether you select one or both, you can also add on ala carte services to customize a package best for your business.

Transmission and Aftertreatment Maintenance Plans can be added to any Freightliner Preventive Maintenance Package or be purchased as standalone maintenance plans.

Service scheduling is best coordinated by contacting your selling Freightliner Dealer.

STANDALONE PREVENTIVE MAINTENANCE PACKAGES (OPTIONAL)

TRANSMISSION PREVENTIVE MAINTENANCE PLAN

AFTERTREATMENT PREVENTIVE MAINTENANCE PLAN**

*Services included in Freightliner Preventive Maintenance Packages are based on the Freightliner and OEM Powertrain factory recommendations. Freightliner Preventive Maintenance Packages may not include every maintenance and inspection necessary as required in the specific maintenance manual provided with your truck documentation.

Service intervals are determined by mileage, hours of operation or elapsed time.

Only service stated on the preventive maintenance contract will be completed. Any missed or remaining maintenance services will not be performed beyond the customer's contractual time/distance period. Additional service will be the responsibility of the customer.

**The Aftertreatment Maintenance Plan is only available for select Detroit Engines.
