DETROIT CONNECT SAFETY FEATURES

Unlock the power of data-driven insights

Above and beyond driver safety.

Detroit Connect Safety Features translates safety performance data into interactive, easy-to-understand insights. With the ability to quickly identify driver behaviors, trends and root causes across this data, you can reduce dangerous driving habits and optimize vehicle performance.

Detroit Connect Safety Event Viewer, paired with Detroit Assurance, delivers critical data when safety events occur. Detroit Connect Video Capture uses the Assurance camera to record these events, transmitting video footage into the Connect Portal. Optional Safety Analytics takes this a step further, with the ability to identify driver behaviors, trends and root causes, with the goal of reducing dangerous driving habits and optimizing vehicle performance.

Tapping into your data.

Safety features are accessible via the Detroit Connect Portal. Once logged in, you can view insights on a single trip, a single vehicle or for your entire fleet over multiple periods.

Detroit Connect Safety features pull insights from the following data points.

SAFETY DATA

Detroit Connect Video Capture	Enhanced Stability Control
Collision Mitigation Braking	Forward collision warnings
Lane departure warnings	ASI Defuel Events
Distance violations	Hands-off wheel alerts
Speed violations	Lane Keep Assist auto stops completed
Roll Stability Control	ASGA Braking Events
